

West Bengal Biodiversity Board has taken initiatives to establish '**Butterfly Conservation Area**' at short listed Educational Institutes of West Bengal to expedite the momentum for implementation of one of the major objectives of the Biological Diversity Act, 2002 through conserving these charismatic species along with their habitats. This will also help students to experience activity-based learning (biodiversity education) and generate awareness on biodiversity and environment as a whole.

Status of Establishment of Butterfly Conservation Area Supported by the Board

Sl. No.	Name of Institutions	District	Status
1.	Okrabari High School	Cooch Bihar	Completed
